Hatz Diesel S.A. (PTY) LTD Company Profile

www.HATZ.co.za

Our History & Facilities

Our parent company Motorenfabrik Hatz GmbH (Germany) was founded in 1880 by Mathias Hatz, initially to repair steam locomotives. In 1926 the company decided to develop its own diesel engine.

Since then, the company has been one of the most successful and innovative diesel engine manufacturers in the world, receiving accolades from many countries for design and reliability.

Subsidiary companies are established on all five continents with dealerships in almost every country in the world.

The company has been represented in South Africa since 1951. In 1986 Motorenfabrik Hatz decided to establish their own subsidiary Company in South Africa.

Sales/Service Network

Repair and Maintenance

Spare Parts

Hatz Diesel (S.A.) (PTY) LTD is responsible for distribution of products in Africa and delivering of parts, service and technical support to OEM's, Dealers and Customers.

Our Head Office facilities include, Sales & Technical Support, Warehouse & Parts Distribution, Workshop Engine Rebuild & Training Centre.

Our Products & Solutions

Our product portfolio extends from small and compact single-cylinder diesel engines with reef rated power of 1.15kW to four-cylinder engines of 62kW.

In addition, we develop a range of diesel driven generators, finished products and systems for industrial, construction, mining, and agriculture applications.

As part of our passion to create power solutions, we review customer operations, and develop integrated solutions to achieve the most efficient use of resources, to reduce operating costs and to increase productivity.
